Various Intercom Systems

-EnGenious DuraFon PRO
Intercom systems
-2 external speakers

Trained HB Techs

Full service installation,
maintenance, rig down and
re-installation.

24/7/365 Support

Rapid response from local
support centers.

Reliable communication in zones with little reception is critical and is often overlooked. HB Rentals' VSAT communication system is designed to offer a robust, dependable solution in remote project sites - send emails, submit a fax or simply make a phone call. The HB VSAT is complemented with various lines of intercom systems. A trained HB communications technician installs and maintains the VSAT system to ensure long term reliability, mitigating risk of failure.

Fixed Antenna System

- Designed specifically for fixed platforms or land, these systems can be deployed on jack-up rigs, production platforms and barge rigs.

Stabilized Antenna System

- Designed specifically for non-fixed platforms, these systems can be deployed on deepwater floating rigs, vessels and boats.

Broad Range of Functionality

- The VSAT allows for voice, data/internet, fax and video capability.
- Standard VSAT package comes equipped with an uninterruptible power supply (UPS) for enhanced reliability.

Optimize Rig Communication

- VSAT packages come equipped with EnGenious DuraFon PRO Intercom systems and 2 external speakers.
- EnGenius phones give you range and flexibility with the industry's longest ranged cordless phones with the ability to expand up to 36 handsets.

Skilled, Expert Service

- 24/7/365 technical staff availability with rapid response from local support centers.
- Full service installation, maintenance, rig down and re-installation at your next project site.
